Ahmed Mohamed Zarea

Geospatial Data Analyst

ahmedzaregis@gmail.com +20 1101026302 6 October, Egypt
https://ahmedzareaprtfolio.vercel.app

Summary

Experienced in geographic information systems, spatial analysis, Power BI dashboard development, and strategic data analytics. Led national education and urban planning projects, implementing digital transformation initiatives through advanced data visualization and analytical modeling.
Proficient in transforming complex geospatial and statistical data into actionable business intelligence for informed decision-making and performance optimization.

Skills

- Esri Products
- AutoCAD
- Python

Google Earth Engine
Civil3D
Web Mapping

QGIS Scripting
Advanced QGIS
Microsoft365

Work History

Head Of GIS Unit - Education Development Fund (EDF)

Mar 2025 - Current

- Lead and manage all GIS-related operations, integrating geospatial technology with data analytics to support educational development projects nationwide.
- Oversee the design, implementation, and maintenance of comprehensive GIS databases, spatial analyses, and mapping solutions.
- Coordinate cross-functional teams to deliver accurate, timely, and actionable geospatial insights for government decision-makers.
- Spearhead projects involving site suitability analysis, spatial data visualization, and interactive dashboard creation using tools like ArcGIS, QGIS, Power BI, and Python.
- Collaborate with government agencies, stakeholders, and partners to ensure GIS supports evidence-based policymaking and resource allocation.
- Ensure data quality, integrity, and compliance with national standards and best practices in geospatial data management.

Geospatial Data Analyst - Education Development Fund (EDF)

Jan 2025 - Mar 2025

- Develop and customize interactive dashboards and reports using GIS and data analytics tools such as ArcGIS, QGIS, Power BI, and Python.
- Present data-driven insights to support decision-makers and government officials.
- Bridge the gap between GIS technology and strategic educational planning.
- Contribute directly to national policy formulation through spatial analysis and evidence-based reporting.
- Collaborate on major projects including educational infrastructure development and site selection.
- Ensure that geospatial intelligence aligns with government priorities and development goals.

GIS Specialist - Education Development Fund (EDF)

Oct 2024 - Current

- Leveraged GIS to identify locations for educational institutions.
- Collected and analyzed spatial data using Microsoft tools.
- Built Power BI dashboards for decision-making.
- Analyzed land use, vegetation, and climate in Harem Hawara.
- Supported planning through spatial analysis.

Technical Office & GIS Engineer - GIS Office

Aug 2023 - Jul 2024

- Developed GIS applications and services.
- Conducted GIS data quality control.
- Prepared and designed maps.
- Verified field survey data accuracy.

Education

Beni Suef University - Master's in GIS and Data Analytics
(October 2025 -Present)

Beni Suef University - Bachelor of Arts in Geomatics (2024)
Grade: Very Good

Certifications

- Certified Python, Microsoft
- Certified Python, (ITI)
- ArcGIS Online Basics, ESRI
- ArcGIS Pro Basics, ESRI
- Putting Your GIS Skills to Work, ESRI
- Using GIS to Solve Problems, ESRI
- Learn ArcGIS Pro, Geosteps
- Data Analysis – Self Learning
- PowerBI For GIS - LinkedIn Learning
- New German Immigration Law Training – Egyptian-German Center
